

Drum Heater Jacket with Digital Control - High Temperature Metal Drum Heating Blanket / Barrel Heater / Heating Jacket

Argus Heating design, manufacture, and distribute a range of IBC and Drum Heaters and accessories. The High Temperature Metal Drum Heater Jackets are specifically designed for high temperature applications. The insulated exterior minimizes heat loss and a compact Digital Temperature Controller ensures that you have an easy, efficient and economical method of heating and maintaining the temperature of your product. Optional Insulated Lid available
Caution: for metal drum applications only.

Other products in the range

Applications

Typically used to heat:

- Greases
- Fats
- Adhesives
- Coatings
- Oils
- Paints
- Cosmetics
- Chemicals

Features

There are Metal Drum Heating Jackets to suit 25, 50, 105, & 200L drums and products that can safely be raised to high temperatures. They are fitted with a Digital PID Temperature Controller, providing precise control from 0-200°C.

Manufactured in accordance with LVD2014/35/EU and tested in accordance with AS/NZS3760-2010+A2.

The approximate warm-up duration is 24 hours to raise 200L of water from +15°C to +80°C with a 1200W drum heater. Custom design Heater Jackets available on request. A fitted Insulated Lid option is available.

Construction

Durable high temperature Silicone/Glass fabric outer; Glass filament insulation; high temperature Silicone Heating Cable; easy quick release buckles; water resistant polycarbonate enclosed digital controller with a 2m power cord and moulded 3-pin plug.

Stock Code	Description	Drum Type (L)	Dimensions (mm)	Wattage(W)	Voltage (V)
DH121 (ex-stock)	0-200°C	200	1990 x 800	1200	230
DH221	0-200°C	200	1990 x 800	1200	110
DH122	0-200°C	200	1990 x 800	1500	230
DH130	0-200°C	105	1650 x 370	700	230
