

Drum Heater Jacket with Digital Control

Heating Blanket / Barrel Heater / Heating Jacket

Argus Heating design, manufacture, and distribute a range of IBC and Drum Heaters and accessories. Drum Heater Jackets are specifically designed to heat the contents of drums, reduce the viscosity of products or melt solids so they are pourable. The Jacket is now fitted with a compact Digital Temperature Controller, providing easy to use, yet precise, temperature control. An Argus Metal Drum Base Heater can be added if additional heating is required. An Insulated Lid for the top of the drum is also available.
