

Flexible Silicone Drum Heaters

Silicone Rubber Heaters / Flexible Heaters

Argus Heating design, manufacture, and distribute a range of Flexible Silicone Drum Heaters suitable for use on 200 litre metal or plastic drums and 60 and 20 litre drums and pails. Flexible Silicone Drum Heaters are specifically designed to reduce the viscosity of products or melt solids to a pourable temperature. These can be used with other Argus Heating products: a Drum Insulated Jacket for greater heating efficiency and/or a Drum Base Heater where the drum and product will accept additional heat.

Applications

Typically used to heat:

- viscous fluid
- grease
- fats
- paints
- chemicals
- inks
- fruit concentrates
- adhesives

Features

The Heaters are tough, long-lasting, and resistant to oil and chemicals. They provide rapid heat-up due to direct contact with the drum, and are fitted with a pre-set thermostat set at 32°C, 42°C or 52°C. They also have an additional over-temperature thermostat for safety. Tested in accordance with AS/NZS3760-2010+A2.

Construction

Made from high-quality fibreglass reinforced silicone sheeting. All Heaters are fitted with a 2m Power Cord and 3-pin plug. Standard with eyelets and lacing rope. Over-spring toggles option available for the 200L metal drum model.

Drum Size (Litre)	Stock Code	Length (mm)	Width (mm)	Voltage (V)	Wattage (W)	Thermostat (°C)
20 (Metal or Plastic)	S346200A	870	150	230	200	32
60 (Metal or Plastic)	S461044A	1174	250	230	440	32
200 (Metal or Plastic)	S7112900	1800	300	230	900	42
200 (Metal only)	S71101300E	1750	250	230	1300	52
200 (Metal only) w/spring toggles	S71101300	1800	250	230	1300	52

Please contact Argus Heating to discuss your application and heating needs.
