

## Moulded Silicone Rubber Heat Pads

### Anti-Condensation Pads / Silicone Rubber Heaters / Silicone Heat Strips / Flexible Strip Heater

Argus Heating design, manufacture, and distribute Silicone Rubber Heaters. These Heat Pads easily attach to a surface using high temperature RTV. They provide gentle heating in low temperature environments to eliminate moisture build-up in enclosures and cabinets and will also prevent the freezing process when fitted to equipment. We can custom design and manufacture Heat Pads to suit your requirements.

1 : Moulded Silicone Rubber Heat Pads – 1 : 50 x 25mm, 2 : 150mm x 75mm, and 3: 225mm x 75mm  
4 : Thin Silicone Rubber Heat Pads – Custom Design

### Applications

Typically used to heat:

- Printers and 3D Printers
- Anti-Condensation Heaters
- Switchboards
- Paper Storage Cabinets
- Heating viscous liquids in small containers
- Low temperature environments
- Electric Motors
- Pumps

### Features

Supplies localised heat in an enclosure or to equipment and not the environment.

Provides low-cost heating for a variety of applications.

They have low initial purchase cost, are simple to install, and very inexpensive to run.

### Construction

Moulded heat-resistant red silicone with a flexible spiral wound element encased within the heat pad.

Voltage (V)	Size (mm)	Stock Code & Wattage (W)					
		10W	20W	30W	40W	60W	90W
230	50 x 25 x 8	S021010A					
230	150 x 75 x 8	S063010A	S063020A	S063030A	S063040A	S063060A	S063090A
230	225 x 75 x 8	S093010A	S093020A	S093030A	S063040A	S093060A	S093090A
24	150 x 75 x 8	S063010D	S063020B	S063030C			
415	150 x 75 x 8	S063010C	S063020C
