

Tubular Heaters

Tubular Radiant Heaters / Tubular Heating Elements / Convection Heaters

Argus Heating Limited design, manufacture, and distribute Tubular Heaters. These Heaters combine traditional design values and rugged construction, with modern high quality materials. They are tough; long lasting; economical; versatile and reliable.

Applications Ideal for chilly and damp situations where an efficient heat source is required such as: Airing Cupboards, Wardrobes, Individual Rooms, Churches, Large Halls, Shops, Factories, Glasshouses, Nurseries, Dog Kennels etc.

Features Convection heating gently warms air as it passes over the tube, efficiently combating winter chills and dampness.

Available in single, two or three tier combinations and lengths ranging from 300mm to 2.4m long.

A 1200mm long single tier heater runs for 9 hours on less than 1 unit of electricity.

Construction Steel tubes with powder coated (Hammerglaze Bronze colour) exterior. 1.2m PVC power cord and NZ/AUS plug.

Wattage

Length	Wattages (W)								
	300	450	600	900	1200	1500	1800	2100	2400
Single Tier	40	57	68	104	145	178	220	261	305
Double Tier			123	184	265	313	389	425	567
Triple Tier			184	276	397	470	583	637	850
